

## What is it?

Phoenix is about making your money work harder for you, by ensuring that all your wellbeing activity is strategically planned for maximum impact. Investing in a holistic wellbeing strategy makes good business sense with higher returns than if you invest on an ad-hoc basis.

There are three levels to Phoenix, and all include a set bundle of MHFA and / or refresher training. Bespoke workshops can be added on top, all at a discount on our general rates.

### EMERGE

Getting the foundations right

### RISE

Strategic advice and business integration

### SOAR

Mobilising your C-Suite & integrating into the wider ED&I Agenda

## Champs always commits to providing:

The highest quality of service

Industry-led experience

Sound advice

## What does that mean in practice?

We scope out your needs thoroughly before you make any decisions, and together we agree the most appropriate level of Phoenix to meet those needs.

You commit to investing for a set amount of time, be that 6 months, a year or more. That gives us both clear sight of what is coming, allowing us to plan and advise around it to ensure that you get the maximum return.

## To build on your investment, every Phoenix partner receives:

A Mental Wealth gap analysis and recommendations for action to close the gap

4-6 weekly check-in meetings with your dedicated programme manager

Access to our membership portal with on-demand and live-streamed Mental Wealth content

Comfort that your investment starts to yield immediate results

Futureproofing for your medium to long term vision

## What does it cost?

The price depends on the people size of your business and whether this is a local (UK) or global programme. Contact us at [info@champsconsult.com](mailto:info@champsconsult.com) to find out more.
